SPANDANA M B

Bengaluru, Karnataka | +91-8310299014 || spandanambaiml2026@gmail.com | Linkedin | Github

EDUCATION

The Oxford College of Engineering 2022-2026

- B.E, Artificial Intelligence & Machine learning, CGPA: 8.9

Sri vidyaniketan Pre-University College 2022

- Secondary School, Karnataka State Board, 96.16%

SGR High-School 2020

- Higher Secondary School, Karnataka State Board, 92.16%

SKILLS AND COURSEWORK

- **Programming Languages:** Python,Java,HTML,CSS
- **Programming Concepts:** Data Structures
- **Artificial Intelligence & Machine Learning**: GEN-AI, Supervised,unsupervised learning ,Pandas, NumPy,Natural language processing
- **Databases**: MongoDB,SQL
- **Version Control:** Git, GitHub
- **Soft Skills:** Problem-Solving, Team Collaboration, Adaptability, Continuous Learning, Communication.

PROJECTS

Sign language Recognition | Python, Annotation tool , opencv,mediapipe

- Developed a project which recognizes hand gestures using python and Annotation tool, opencv and mediapipe.

E-Commerce Sales Prediction | Python, Machine Learning

- The proposed system is designed to help e-commerce businesses forecast product sales more accurately using machine learning. By analyzing historical data, seasonal trends, and promotional factors, the system provides timely sales predictions that support smarter business decisions**.**

Personal Expenses Tracker | Python, Pandas, matplot

- Built a personal finance dashboard using Python, Pandas for data manipulation, and Matplotlib for visualizing expense trends, providing insights into spending patterns and helping users optimize their budget**.**

Real-Time AI Matching

- This project matches users/items in real-time using AI-driven similarity. It uses FastAPI for the backend, React for the frontend, WebSockets for live updates, and FAISS for fast vector search.

Generative AI for Youth Mental Wellness

- This project uses generative AI to provide confidential, empathetic support for youth mental wellness, offering guidance, coping strategies, and resources. NLP and AI-driven insights help personalize interactions while promoting awareness and reducing stigma."

HACKATHON ACHIEVEMENT

Cell Verse Docathon:

- Excelled among all participants, where doctors and engineers will be in a team and showcasing leadership and technical skills in developing a gastereoenterology and obesity AI scribe.

CERTIFICATIONS

- Course completion certificate in **Artificial Intelligence** from simplilearn
- Course completion certificate in **GenAI** from Linkedin Learning.
- Certificate in **Python** from simplilearn.
- Certificate in **Data Analytics using Power Bi** from letsupgrade
- Course completion in Explore **Text to speech** using IBM watson

ACHIEVEMENTS

- Participated in the Eurogrip TORQ Challenge 3.0 – Treasure Hunt,organized by Eurogrip and Unstop!
- Participated & earned a skill badge in the GenAi exchange program organized by Google Cloud

POSITIONS OF RESPONSIBILITY

- Contributed to coding projects, enhancing skills in teamwork and problem-solving.
